

Forest Ecology Video Questions

While watching these videos, write down any words you hear that are unfamiliar. Look them up afterward and write a definition. (Do at least 4)

Vocab:

[West Fork Fire Complex](#)

1. Where was the West Fork fire?
2. What three factors contributed to the fire intensity?
3. What are strategies that communities can use to respond to and prepare for disasters?

[Future of our Forests](#)

Explain three different threats to forests. How are they related?

Describe one of the factors mentioned that will impact forest recovery from landscape disturbance.

Forest Management

What are some forest management techniques?

Why is the forest service trying to harvest beetle-killed timber?

What are the benefits of prescribed fire?

Upper Rio Watershed

1. What is the primary purpose for managing Rio Grande Forest?
2. What are two causes of forest ecosystem disturbance?
3. How does forest health impact communities? (list three)
