

“Soil. Where it all begins”- Poster Contest

Brainstorming Worksheet

Name: _____

Write down two or more different things under each prompt.

1. Why is soil important?

2. What causes soil to be harmed or become unhealthy?

3. How can people take care of the soil?

*Any of your previous answers can be your poster’s conservation takeaway or message. **Circle 1-2 things you wrote down** that you can incorporate into a poster.

How can you visually represent your conservation idea? What images come to mind?

Write down ideas you want to research more to include in your poster.
